Safety Data Sheet

*** Section 1 - Product and Company Identification ***

Material Name: Quicklime
Synonyms: Burned Lime, Unslaked Lime, Calcium Oxide

Manufacturer Information
CALPORTLAND COMPANY
2025 E. Financial Way
Glendora, CA 91741
Phone: 626-852-6200
www.calportland.com

*** Section 2 - Hazards Identification ***

GHS Classification:
- Skin Corrosion/Irritation - Category 1B
- Eye Damage/Irritation - Category 1
- Carcinogenicity - Category 1A
- Specific Target Organ Toxicity Repeat Exposure - Category 1

GHS LABEL ELEMENTS
Symbol(s)

Signal Word
Danger

Hazard Statements
- Causes severe skin burns and eye damage.
- May cause cancer.
- Causes damage to organs (lungs) through prolonged or repeated exposure.

Precautionary Statements
- Prevention
  - Do not breathe dusts/gas/mist/vapors/spray.
  - Wash thoroughly after handling.
  - Do not eat, drink or smoke when using this product.
  - Wear protective gloves/protective clothing/eye protection/face protection.
  - Obtain special instructions before use.
  - Do not handle until all safety precautions have been read and understood.

Response
Safety Data Sheet

Material Name: Quicklime

If swallowed: Rinse mouth. Do NOT induce vomiting. Immediately call a poison center/doctor.
If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse.
If inhaled: Remove person to fresh air and keep comfortable for breathing.
If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor.

Storage
Store in an appropriate container or containment structure.

Disposal
Dispose of contents/container in accordance with local/regional/national/international regulations.

Component Information/Information on Non-Hazardous Components

General Product Information
All substances listed are associated with the nature of the raw materials used in the manufacture of this product and are not independent components of the product formulation.

*** Section 4 - First Aid Measures ***

First Aid: Eyes
In case of contact, do not rub or scratch your eyes. Due to lime content in this product, if eye contact occurs immediately flush eyes with copious amounts of water, occasionally lifting the lower and upper lids. Get medical attention immediately.

First Aid: Skin
Flush exposed skin with copious amounts of water for at least 15 minutes depending on concentration, amount and duration of exposure. Wash with mild soap and water. Immediately remove all contaminated clothing, including footwear. Call physician if irritation persists.

First Aid: Ingestion
Due to alkalinity caused by the lime content of this product, get medical attention immediately.

First Aid: Inhalation
Remove to fresh air. Seek medical help if coughing and other symptoms do not subside.

*** Section 5 - Fire Fighting Measures ***

General Fire Hazards
See Section 9 for Flammability Properties.
None known.

Hazardous Combustion Products
None.
Extinguishing Media
Use large amounts of water.

Unsuitable Extinguishing Media
None

Fire Fighting Equipment/Instructions
Firefighters should wear full protective gear.

*** Section 6 - Accidental Release Measures ***

Recovery and Neutralization
No special precautions.

Materials and Methods for Clean-Up
Neutralize with dilute acid due to lime content. Scrape up material and place in an appropriate container.

Emergency Measures
Isolate area. Keep unnecessary personnel away.

Personal Precautions and Protective Equipment
Wear appropriate protective equipment and clothing during clean-up.

Environmental Precautions
None

Prevention of Secondary Hazards
None

*** Section 7 - Handling and Storage ***

Handling Procedures
Avoid dust contact with eyes. Wear the appropriate eye protection against dust. Minimize dust generation and accumulation. Avoid breathing dust. Wear the appropriate respiratory protection against dust in poorly ventilated areas and if TLV is exceeded. Use good safety and industrial hygiene practices.

Storage Procedures
Store in cool, dry, ventilated area away from sources of heat, moisture and incompatible materials. Moisture and long storage causes lumping and makes lime less reactive.

Incompatibilities
Can react violently with water.

*** Section 8 - Exposure Controls / Personal Protection ***

Component Exposure Limits

- Calcium oxide (1305-78-8)
  - ACGIH: 2 mg/m3 TWA
  - OSHA: 5 mg/m3 TWA
  - NIOSH: 2 mg/m3 TWA

- Quartz (14808-60-7)
  - ACGIH: 0.025 mg/m3 TWA (respirable fraction)
  - NIOSH: 0.05 mg/m3 TWA (respirable dust)

Engineering Measures
Use local exhaust or general dilution ventilation to control exposure within applicable limits.
Personal Protective Equipment: Respiratory
Avoid actions that cause dust exposure to occur. Use local or general ventilation to control exposures below applicable exposure limits. NIOSH or MSHA approved particulate filter respirators should be used in the context of respiratory protection program meeting the requirements of the OSHA respiratory protection standard [29 CFR 1910.134] to control exposures when ventilation or other controls are inadequate or discomfort or irritation is experienced. Respirator and/or filter cartridge selection should be based on American National Standards Institute (ANSI) Standards Z88.2 Practices for Respiratory Protection.

Personal Protective Equipment: Hands
Where prolonged exposure to products might occur, wear impervious gloves to eliminate skin contact.

Personal Protective Equipment: Eyes
When engaged in activities where ingredients could contact the eye, wear safety glasses with side shields or goggles. In extremely dusty environments and unpredictable environments, wear unvented or indirectly vented goggles to avoid eye irritation or injury. Contact lenses should not be worn when working with ingredients.

Personal Protective Equipment: Skin and Body
Normal work clothing (long sleeved shirts and long pants) is recommended.

*** Section 10 - Chemical Stability & Reactivity Information ***

Chemical Stability
This is a stable material.

Hazardous Reaction Potential
Will not occur.

Conditions to Avoid
Contact with incompatibles.

Incompatible Products
Can react violently with water.

Hazardous Decomposition Products
Reacts with water to form calcium hydroxide. Calcium hydroxide and water solution can be irritating and corrosive to skin.
*** Section 11 - Toxicological Information ***

Acute Toxicity

Component Analysis - LD50/LC50
Calcium oxide (1305-78-8)
Oral LD50 Rat 500 mg/kg

Quartz (14808-60-7)
Oral LD50 Rat 500 mg/kg

Potential Health Effects: Skin Corrosion Property/Stimulativeness
Chemical burns or irritation of skin may result due to hydrated lime content. Direct, prolonged or repeated contact with the skin may cause dermatitis.

Potential Health Effects: Eye Critical Damage/ Stimulativeness
Dust can cause mechanical irritation of eyes. Hydrated lime is a strongly alkaline material and is very irritating to eyes.

Potential Health Effects: Ingestion
May be corrosive to the digestive tract.

Potential Health Effects: Inhalation
Exposure to dust generated during the handling or use of the product may irritate eyes, skin, nose, throat and upper respiratory tract.

Respiratory Organs Sensitization/Skin Sensitization
This product is not reported to have any sensitization effects.

Generative Cell Mutagenicity
This product is not reported to have any mutagenic effects.

Carcinogenicity
A: General Product Information
May cause cancer.

Exposures to respirable crystalline silica are not expected during the normal use of this product. Prolonged and repeated exposure to airborne free respirable crystalline silica can result in lung disease and/or lung cancer. IARC states that crystalline silica in the form of quartz or cristobalite from occupational sources is carcinogenic to humans (Group 1).

B: Component Carcinogenicity
Quartz (14808-60-7)
ACGIH: A2 - Suspected Human Carcinogen
NIOSH: potential occupational carcinogen
NTP: Known Human Carcinogen (respirable size) (Select Carcinogen)
IARC: Monograph 100C [2012] (listed under Crystalline silica inhaled in the form of quartz or cristobalite from occupational sources); Monograph 68 [1997] (Group 1 (carcinogenic to humans))

Reproductive Toxicity
This product is not reported to have any reproductive toxicity effects.
Safety Data Sheet

Material Name: Quicklime

Specified Target Organ General Toxicity: Single Exposure
This product is not reported to have any single exposure specific target organ toxicity effects.

Specified Target Organ General Toxicity: Repeated Exposure
Causes damage to organs (lungs) through prolonged or repeated exposure.

Aspiration Respiratory Organs Hazard
This product is not reported to have any aspiration hazard effects.

---

*** Section 12 - Ecological Information ***

Ecotoxicity

A: General Product Information
This product is not reported to have any ecotoxicity effects. Hydrated lime is expected to be toxic to fish due to its high alkalinity. Discharge of large quantities directly into waterways would be expected to cause significant fish kills.

B: Component Analysis - Ecotoxicity - Aquatic Toxicity
Calcium oxide (1305-78-8)
