Manufacturer:

CalPortland Company
2025 E. Financial Way
Glendora, CA 91741
626.852.6200
www.calportland.com

Product Description:

ADVANCEMENT™ LT cement utilizes clinker interground with limestone and gypsum to produce a portland-limestone cement. ADVANCEMENT™ LT cement is lighter in color due to both chemistry of the raw ingredients used for manufacture and interground limestone.

Product Applications:

Concrete Masonry Units
Architectural Precast Products
Custom Color Stucco Blends
Ready Mix Concrete
Precast Concrete

Benefits:

ADVANCEMENT™ LT cement is a light colored cement formulated for use in normal and architectural colored applications of masonry, concrete, precast and plaster products. ADVANCEMENT™ LT reduces the amount of CO₂ in the manufacturing process as compared to common ASTM C150 cements by approximately 10 percent while maintaining product performance requirements.

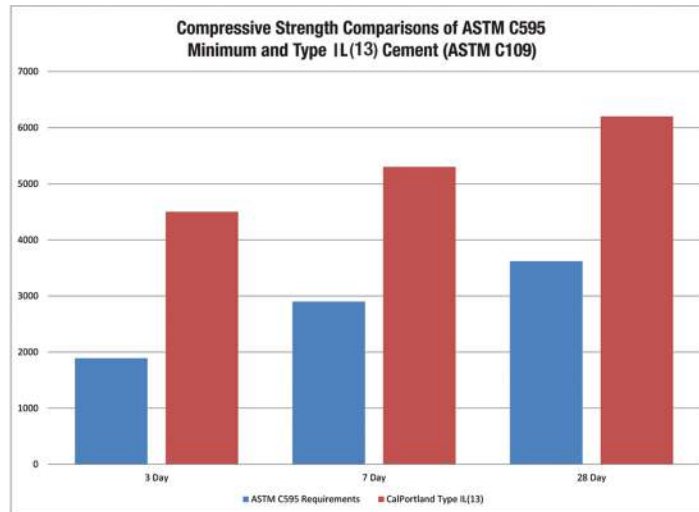

Quality:

Established in 1891, CalPortland is proudly advancing into its second century of providing unsurpassed quality, with a full product line of superior performing cement products and solutions for your greatest construction challenges.

From our state-of-the-art cement production facilities we manufacture product using only high quality raw materials and strict quality control procedures. CalPortland is recognized as the leader in quality cement production and innovation.

ADVANCEMENT™ LT

Concrete Masonry, Architectural Concrete Products,
Ready Mix and Precast Concrete

Standards:

ADVANCEMENT™ LT conforms to the requirements of ASTM C595 and AASHTO M240 for Portland-Limestone Type IL cement.

Product Precautions:

ADVANCEMENT™ LT is not for use in areas subject to sulfates in soils. For precise product application it is important to refer to the project specification.

Contact with cement (including unhardened concrete, mortar, wet cement, or cement admixtures) can cause skin irritation, severe chemical burns, or serious eye damage. Avoid contact with eyes and skin. Seek immediate medical attention if you have persistent or severe discomfort. In case of eye contact, flush with plenty of water for at least 15 minutes. Consult a physician immediately.

For other precautions please refer to the CalPortland Portland Cement SDS Report.

Availability:

ADVANCEMENT™ LT cement is available in bulk quantities at: 19409 National Trails Hwy. Oro Grande, CA 92368

Sacked products are available through select building suppliers.
